

Belt Size

We suggest to follow these simple tips to find out your belt size.

If you have an old belt measure the distance in inch. between the third hole and the end of the buckle, or, if you have a belt that you regularly wear, you can measure the distance between the main hole used and the end of the buckle.

In this way you find measurement of the waist in inch.

If you haven't a belt you can measure the size of your waist in inch. over the loops of your pants.

If you haven't a belt you can measure the size of your waist in inch. over the loops of your pants. If in doubt round up for the next size, our belts are adjustable.
